WITH **INDIAN**
SPICES

FUSING CULTURE THROUGH FLAVOURS

With Indian food being one of the most loved cuisines across the globe, the demand for Indian spices, blended spices and ready mixes is on the rise. The Indian cuisine is not just savoured by Indians living across the globe, but by other ethnicities as well. People from India's neighbourhood - Pakistan, Nepal, Bangladesh, Sri Lanka and Bhutan - living abroad regularly purchase Indian spices and spice mixes to cook their favourite dishes.

The natives of the land too have now begun to love and cherish the Indian food - be it tikka, kababs, biryani, samosa or curries.

Indian food is cooking up a storm wherever it goes.

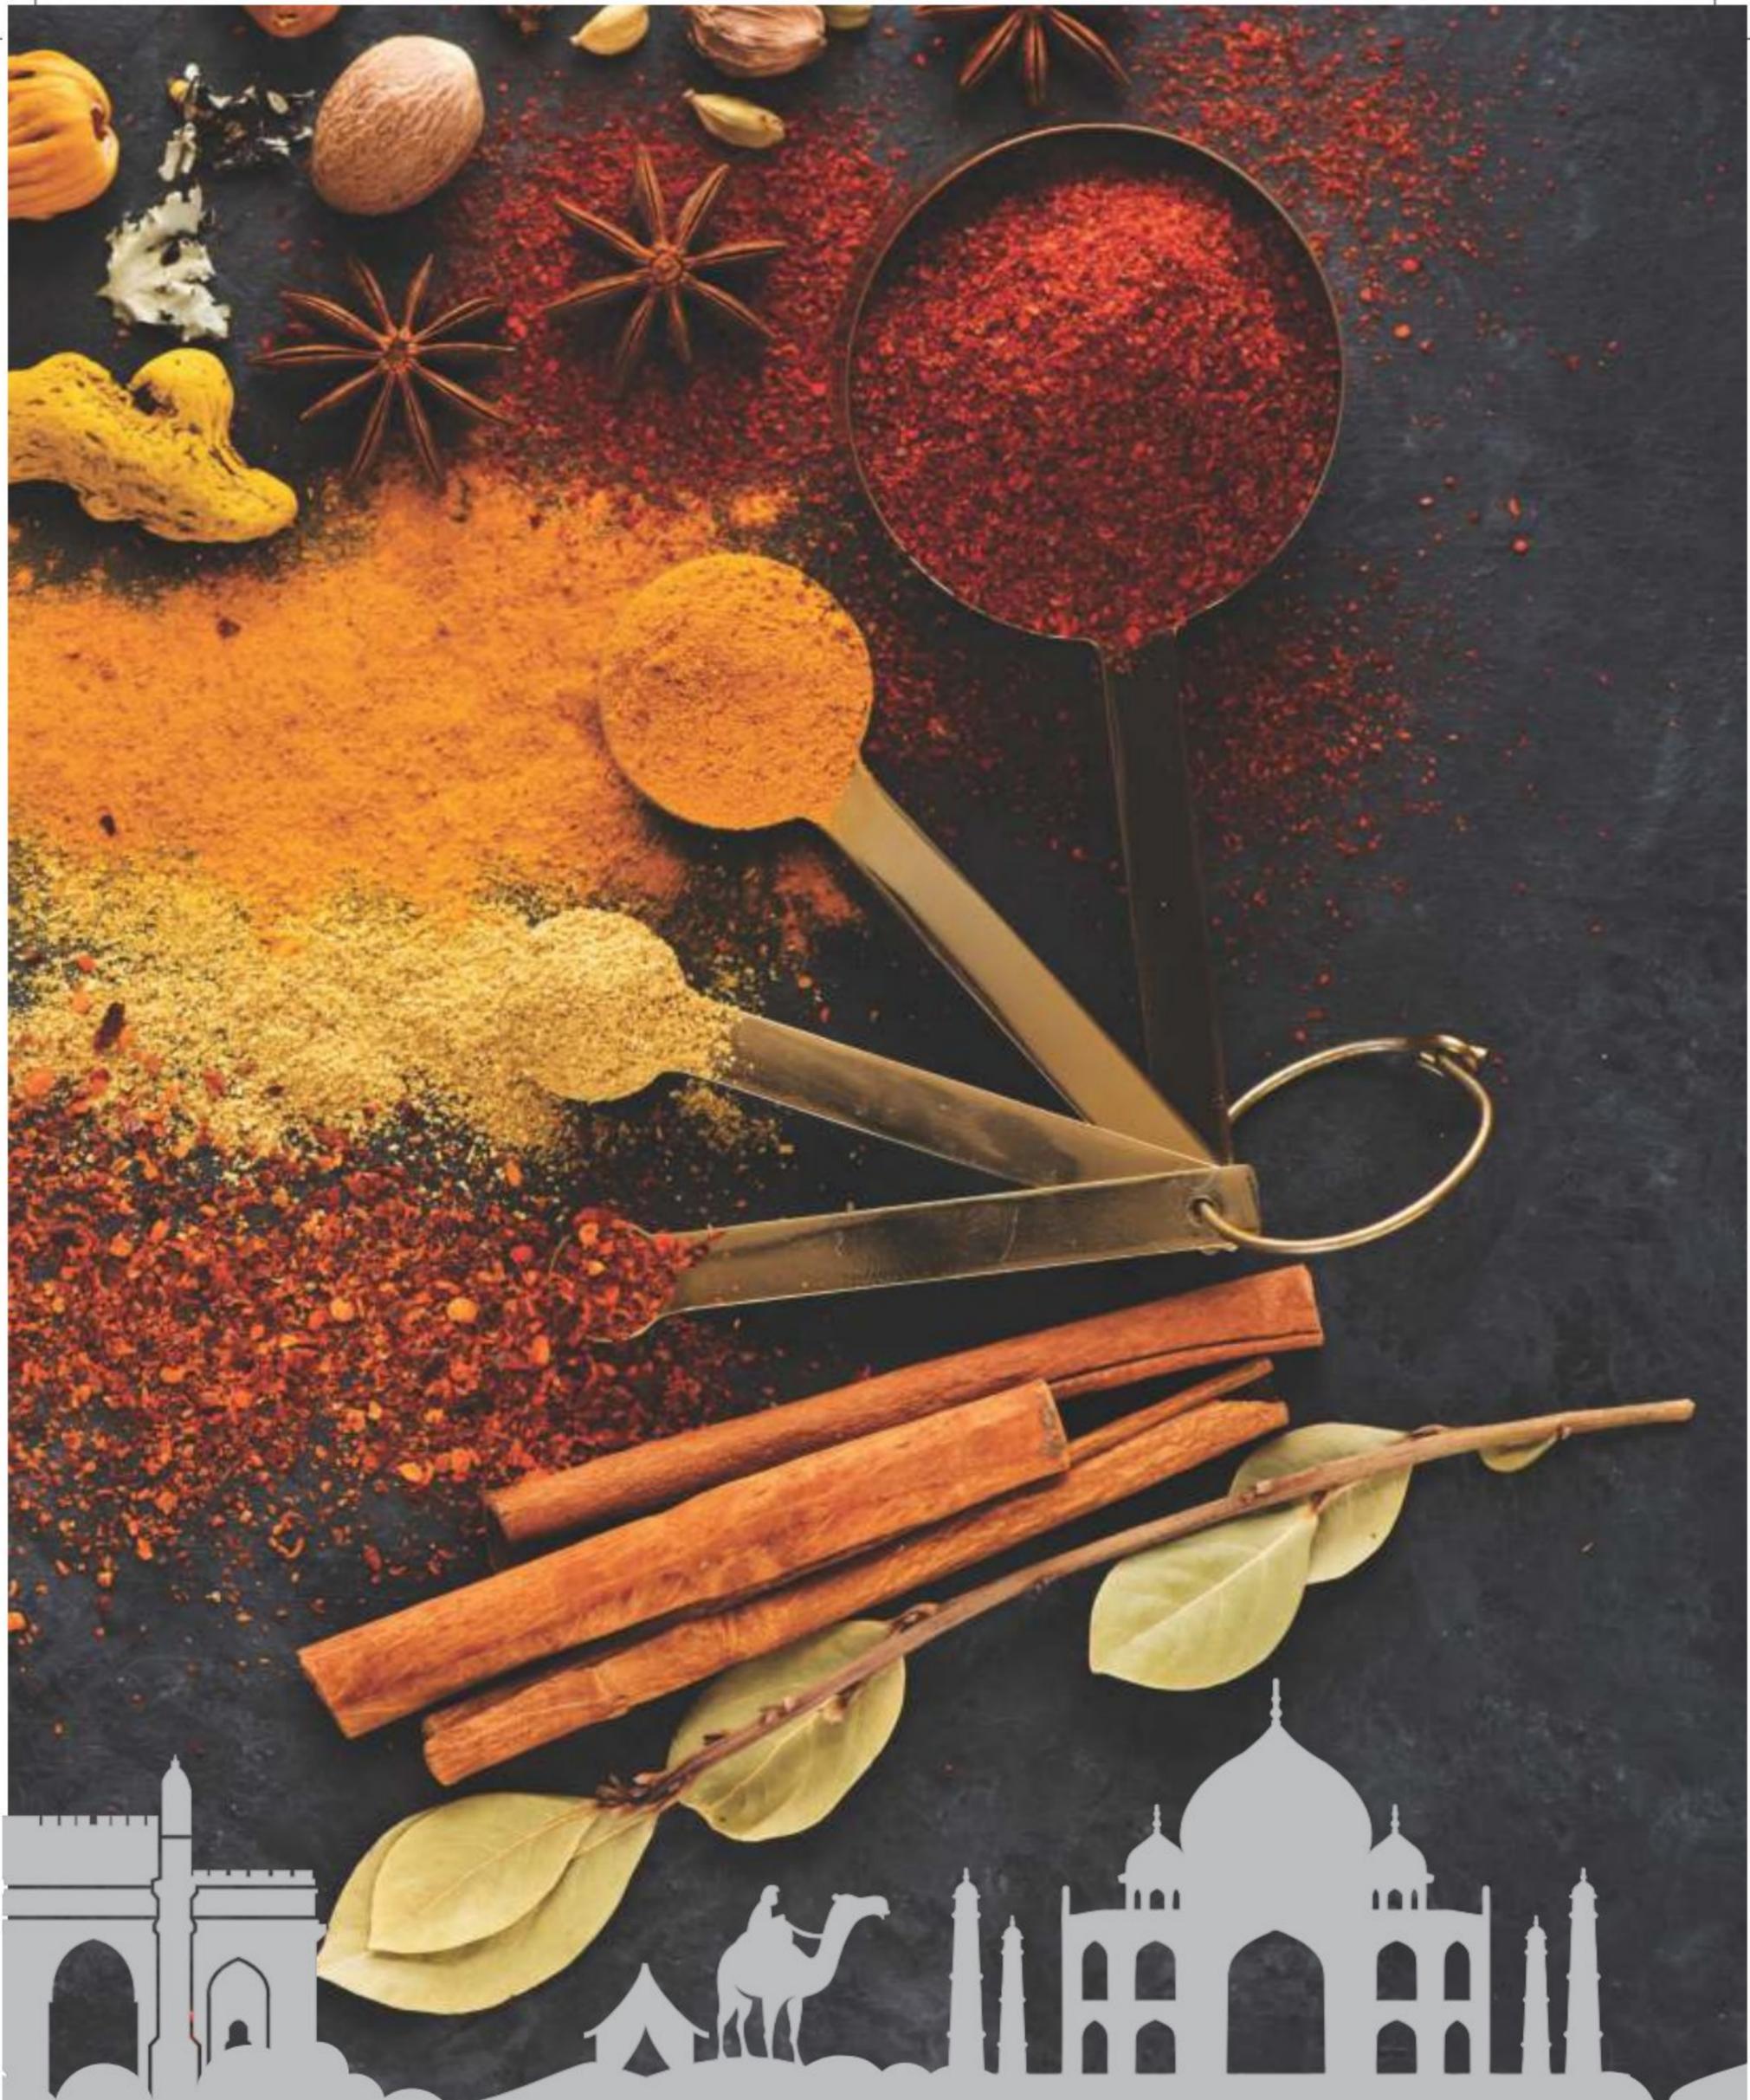

Satiate the cravings for Indian cuisines with **Fresh, Flavourful, Authentic and Aromatic** spices, blended spices, ready instant mixes and more.

"Gajanand" is a brand with a rich legacy of four decades; developed and enhanced on purity, quality and taste.

PREMIUM QUALITY SPICES FOR THE WORLD

Gajanand pure and blended spices come with the promise of high standard of purity, freshness and authenticity in every pack. We are known for consistently delivering aromatic and flavourful spices and spice mixes.

Across the world different spices and blends are used to create different and distinctive tastes in dishes. Each spice lends its unique flavour, aroma and taste to the dish. We understand that great taste is backed by usage of high-quality and pure spices. That's why at Gajanand, we deliver the freshest spices with their essential oils intact that impart undiluted aroma and flavour into the food.

With presence for more than four decades, Gajanand today is a household name and is synonymous with quality and innovation.

Always the best

From picking only high-quality raw materials to delivering pure and fresh products, we ensure that only the best quality products reach your shelves. We follow stringent quality control parameters laid by regulatory bodies. Our plant is designed to meet the GMP and International Food Safety Standards with adequate hygiene and sanitisation systems, where hygiene and quality is measured.
